### **"Treatment of Asset-Backed Issuers under the Investment Company Act"**

Salessi's Comments on 9/5/11:

The SEC is a [REDACTED] counterfeiting enterprise: Together with all other "FEDERAL" and/or "FEDERALLY RELATED" entities you have committed to the counterfeiting of over \$1000 trillions of counterfeit securities under numerous names, and pretexts. See proof at:

It appears that your new deceptions are to cover the crime tracks of the above colossal counterfeits which I reported in 2004, within the litigation of my Orange County, Ca. Case number 04CC11080, a few pages of which is herein linked to:

If you have a scintilla of honesty why dont you forfeit half a trillion dollars of CONFESSED Wachovia Drug Money, partially laundered by purchase of \$120 billion of counterfeit World Savings loans, which in turn were further counterfeited into several trillions of counterfeit instruments created under the SECs watch, and under bogus pretexts like Asset-Backed Securities or Mortgage-Backed-Securities, or Collateralized Debt Obligations (CDO), sold to the public employees pension funds? I believe that all of you operating such public, or private, ██████████ counterfeiting operations, together with all of your associates-in-fact (like your lawyers) should be locked up indefinitely, without bond.
